

Welcome To Our Caring, Thinking School

Dear Families,

A warm welcome to The Olive Tree and to the new school year 2017-18.

As we enter our eighth year, we renew our commitment to provide an inspiring learning environment for every one of our pupils.

We continue to provide a reflective space for children and young people to investigate, wonder and create.

And we continue to hold high expectations of every child and help them reach their personal best.

This year, we turn our attention to what creativity really means in a 21st century education. We have also been inspired to take our learning out of the classroom in new ways which will deepen the learning experience for all pupils.

In the secondary school this year, our focus is on the independent learning skills of resourcefulness, responsibility and reflection.

We invite you to join us on your child's exciting learning journey this year.

Warmly,

Audrey Reeder

Headteacher
